

Santa Claus

Santa Claus, Santa Claus
Santa Claus, Santa Claus
We all love you
Santa Claus

With your bright red suit and your long white beard
Your floppy hat that covers your ears
Santa Claus you're the best

You carry your presents in a sack
And you put them under the tree
Hope you bring one for me

You fly through the sky on a shiny sleigh
Your reindeers pull you all the way
Santa Claus, you're a magic man

You can crawl through key-holes
Walk through walls
Go up and down chimneys
But that's not all
Santa Claus you can disappear

We're gonna leave you a glass of milk
And a cookie on a plate
Santa Claus please don't be late

Because all the little boys
And all the little girls
In every little place all around the world
They're waiting for you
Santa Claus
